Passport: A14076110 **Gender**: Male **Date of birth**: 1 Feb 2000 **Place of birth**: Habiganj, Bangladesh **Nationality**: Bangladeshi

ABOUT ME

I am a computer science graduate with a strong foundation in programming, algorithms, and applied statistics. My coursework also included digital electronics, signal processing, and computer architecture, which connect closely to biomedical engineering. I have been admitted to the M.Sc. in Biomedical Engineering at Ulm University, a program that combines electrical engineering, computer science, and health sciences. My interest in this field started when I built health-related software during my undergraduate studies, including a full-stack telemedicine platform. I want to build a career in medical device software and biomedical data analysis. Through this, I hope to support the growth of biomedical engineering in my home country, Bangladesh, and also make a positive impact on global healthcare.

EDUCATION AND TRAINING

[14 Jan 2020 – 23 Jun 2024]

Bachelor of Science (B.Sc.) in Computer Science and Engineering

Leading University <https://www.lus.ac.bd/>

City: Sylhet | **Country**: Bangladesh | **Final grade**: 2.85/4.00 | **Number of credits**: 152

Relevant Coursework: Digital Signal Processing | VLSI | Digital Electronics | Microprocessor, Assembly Language & Computer Interfacing | Computer Architecture and Design | Algorithms | Machine Learning | Probability and Statistics | Database Management System

[1 Jan 2017 – 17 Jul 2019]

Higher Secondary Certificate (HSC)

Board of Intermediate & Secondary Education, Sylhet

City: Habiganj | **Country**: Bangladesh | **Final grade**: 3.17/5.00

Main subjects: Physics | Chemistry | Higher Mathematics | Biology | Bangla | English | ICT

WORK EXPERIENCE

Sourav Enterprise Eu Ltd www.souraveu.com

City: Dhaka | **Country**: Bangladesh | **Email address**: sales@souraveu.com

[26 Dec 2024 – Current]

Software Developer & IT Support

- Continued to develop and maintain internal web servers and web applications using React, Node.js, Express, and MongoDB (MERN stack) to streamline business operations and reduce manual effort.
- Built and managed RESTful APIs and handled database operations, ensuring efficient data flow and system performance.

Pantech Prolabs India Pvt. Ltd. www.pantechsolutions.net

City: Chennai, TamilNadu | **Country**: India

[22 Aug 2024 – 22 Nov 2024]

Internship on Full Stack Web Development

- Developed full-stack web applications using React.js, Node.js, Express.js, and MongoDB, following MVC architecture and RESTful API principles.
- Designed responsive user interfaces and integrated backend services, improving application performance and user experience

PROJECTS

SMART-MED — Healthcare Telemedicine Platform | React, Node.js, Express.js, PostgreSQL, Prisma, WebSocket (Socket.io)

- Designed and developed a full-stack telemedicine platform with appointment booking, video consultation, digital health records, and role-based portals for patients, doctors, and admins, backed by a RESTful backend (30+ endpoints) with JWT authentication, transactional booking logic, real-time (WebSocket) seat availability, automated PDF confirmations, and doctor verification.
- Implemented a synthetic ECG waveform generator and a Pan-Tompkins-inspired R-peak detection algorithm for heart-rate estimation, exploring biomedical signal-processing fundamentals within the platform.

DEB Commerce — E-commerce Integrated with Back Office Management Platform | React, Tailwind CSS, Node.js, Express.js, MongoDB

- Designed and developed a full-stack platform integrating an online storefront with a multi-store back-office system, managing inventory, warehouse stock, and sales across multiple physical stores from a single dashboard, with POS integration, barcode/QR scanning, and a RESTful backend (Node.js/Express, MongoDB) handling inventory synchronization, multi-vendor supplier management, and real-time online/offline sales recording.
- Developed a responsive React + Tailwind CSS admin interface featuring a sales analytics and reporting dashboard with automated low-stock and product-expiry alerts, helping store managers track performance per store and reduce product wastage.

SKILLS

Programming Languages:

C | C++ | Python | PHP | Java (OOP) | JavaScript

Web Technologies

HTML | CSS | Bootstrap | Tailwind CSS | ReactJs | Node.js | Express.js

Databases & Architecture

MySQL | MongoDB | PostgreSQL | MVC Architecture | RESTful APIs

Development Simulation & Analysis Tools

VS Code | GitHub | Docker | Linux (Ubuntu, Kali) | Multisim | MATLAB

LANGUAGE SKILLS

Mother tongue(s): Bengali

Other language(s):

English

LISTENING B1 **READING** B2 **WRITING** B2

SPOKEN PRODUCTION B2 **SPOKEN INTERACTION** B2

VOLUNTEERING & LEADERSHIP ACTIVITIES

[Jun 2022 – Jun 2023]

Vice-Secretary - Leading University Rotaract Club (RCLU)

[Jun 2021 – Jun 2022]

Executive Member - Leading University Computer Club (LUCC)

[30 Nov 2019 – 30 Nov 2023]

Sports Event Volunteer – Cricket & Football Tournaments

[1 Nov 2021]

Research Bootcamp Volunteer & Participant – LU Research Bootcamp

RECOMMENDATIONS

Name: Md. Ebrahim Hossain | Associate Professor, Department of Computer Science & Engineering, Leading University
